PROFESSIONAL SUMMARY

Senior UI / Front-end Developer with 8+ years of expertise in creating responsive, high-performance interfaces and landing pages for global enterprise brands. As a **two-time recipient of the 'Star Performer of the Year' award (2024-2025)**, I am known for driving innovation and delivering high-impact projects independently. I bring extensive experience working on high-traffic platforms like **Times of India and American Express, Maruti Suzuki Arena, Sify**, with strong technical skills in **React.js, TypeScript, HTML5, CSS3, JavaScript, SCSS, and Tailwind and Bootstrap CSS**. Dedicated to pixel-perfect delivery, UI optimization, and maintaining the highest standards of quality.

CORE TECHNICAL EXPERTISE

- **Enterprise CMS:** AEM, Sitecore and Drupal Content Management Systems.
- **Web Technologies:** HTML5, CSS3, SCSS, and JavaScript (ES6).
- **Libraries & Frameworks:** jQuery, Tailwind CSS, and Bootstrap 4/5.
- **Design & Layout:** Responsive Design and Figma (Design Handoff & Implementation).
- **Tools & Animation:** Google Web Designer (HTML5 Ads) and Spark AR.
- **Optimization:** UI Performance Optimization and Basic SEO.

MODERN FRONTEND EXPERTISE

- **React.js and component-based architecture** – Developed scalable and reusable UI components using React.js to build maintainable and high-performance frontend applications.
- **TypeScript and modern JavaScript (ES6+)** – Worked with modern JavaScript features and TypeScript for writing clean, structured, and scalable frontend code with improved maintainability.
- **REST API integration and dynamic rendering** – Integrated REST APIs to fetch and display dynamic data, enabling interactive and data-driven user experiences.
- **Reusable UI component development** – Created reusable and modular UI components to improve development efficiency, consistency, and scalability across projects.
- **State-driven and responsive UI development** – Built responsive user interfaces with dynamic state management to ensure seamless user experiences across devices and screen sizes.
- **Performance optimization and lazy loading** – Optimized frontend performance using techniques like lazy loading, code optimization, and efficient asset handling to improve page speed and user experience.
- **Git/GitHub and collaborative workflows** – Used Git and GitHub for version control, code management, collaboration, and maintaining efficient development workflows within teams.
- **Vite, npm, and frontend build tools** – Worked with modern frontend tooling including Vite and npm for project setup, dependency management, faster builds, and optimized development workflows.

DIGITAL MARKETING & CAMPAIGN SKILLS

- **Campaign Assets:** HTML5 Banner Development and Interactive Creative Production.
- **Web Solutions:** Landing Page Development and Email Template Creation.
- **Optimization & Testing:** A/B Testing Support and UI Layout Optimization.
- **Compatibility:** Expert in Cross-browser and Cross-device Compatibility

TEAM LEADERSHIP & OPERATIONS

- **Led and mentored teams of up to 3 developers and coordinated daily production activities**
- **Assigned tasks, tracked progress, and ensured timely completion of deliverables**
- **Conducted quality reviews and resolved technical issues during campaign production**
- **Maintained communication with stakeholders regarding project status and risks**

PROCESS IMPROVEMENT / AUTOMATION

- **Streamlined campaign and frontend production workflows to reduce turnaround time (TAT), improve delivery efficiency, and minimize manual errors.**
- **Introduced reusable UI templates, modular components, and standardized development practices to accelerate project delivery and maintain consistency across platforms.**
- **Leveraged AI-powered tools and automation techniques to optimize frontend workflows, content generation, code efficiency, and productivity.**

PROFESSIONAL EXPERIENCE

Times Internet Ltd – Senior UI Developer

Noida | 2022 – Present

- Recipient of the “Star Performer of the Year” award for two consecutive years (2023–2025) in recognition of outstanding frontend delivery, ownership, and consistent high-impact contributions.
- Developed and maintained scalable, responsive, and high-performance UI solutions for enterprise-level platforms including The Times of India, The Economic Times, and Navbharat Times, serving millions of users daily.
- Led frontend development for multiple large-scale digital initiatives, delivering dynamic web applications, interactive landing experiences, and reusable UI components using modern web technologies.
- Improved application performance and user engagement through UI optimization, performance monitoring, responsive design enhancements, and data-driven A/B testing strategies.
- Implementing pixel-perfect designs from Figma/Adobe XD, ensuring 100% cross-browser and cross device compatibility across live production environments.
- Translated complex Figma and Adobe XD designs into pixel-perfect, accessible, and cross-browser compatible user interfaces with strong focus on responsiveness and UX consistency.
- Collaborated closely with Product, Design, Marketing, and Backend teams to drive end-to-end frontend development, feature delivery, production releases, and ongoing platform enhancements.
- Built reusable and maintainable frontend architecture using modern JavaScript frameworks, ensuring code scalability, component reusability, and development efficiency across projects.

DENTSU AEGIS NETWORK (Isobar) – Associate UI Developer

Gurgaon | 2017 – 2022

- Contributed to the development and maintenance of enterprise and consumer-facing digital platforms for leading brands including Maruti Suzuki Arena, Canon India, American Express, Bira91, and Indiaistore.
- Built responsive, scalable, and reusable frontend components using HTML5, CSS3, JavaScript, jQuery, and Bootstrap, ensuring optimal performance across devices and browsers.
- Worked extensively in Sitecore CMS and ASP.NET MVC environments, integrating frontend interfaces with dynamic backend-driven content and business workflows.
- Collaborated closely with cross-functional teams including Client Servicing, UI/UX Design, and Backend Development to deliver high-quality, pixel-perfect user experiences within project timelines.
- Participated in the development of interactive campaign experiences, rich media assets, and branded digital solutions while adhering to modern UI/UX and web performance standards.
- Ensured cross-browser compatibility, responsive behavior, accessibility compliance, and UI consistency across multiple enterprise web applications and campaign platforms.

SELECTED PROJECTS

- **Maruti Suzuki Arena:** Led frontend UI development and CMS-driven content implementation for dealer and customer-facing web platforms, ensuring responsive design and seamless user experience
- **Times Group Ad UI Showcase:** Developed scalable, interactive frontend solutions and reusable HTML5-based ad experiences for high-traffic media platforms and campaign ecosystems.
- **Canon India:** Built responsive and performance-optimized product and marketing pages with focus on UI consistency, accessibility, and cross-browser compatibility.
- **Max Bupa Health Insurance:** Developed interactive digital campaign interfaces and rich media web assets, contributing to enhanced user engagement and brand visibility.
- Worked closely with stakeholders, designers, and backend teams to translate business requirements into scalable and user-centric frontend solutions.
- Implemented reusable UI components and optimized frontend architecture to improve development efficiency and maintainability across projects.
- Enhanced website performance, responsiveness, and accessibility standards, resulting in improved user engagement and seamless cross-device experiences.
- Participated in end-to-end project delivery including requirement analysis, UI development, testing, deployment, and production support.
- Integrated dynamic APIs and CMS-driven content modules to deliver interactive and data-driven user experiences.
- Maintained high coding standards, browser compatibility, and responsive design practices across multiple enterprise-grade web applications.
- Contributed to continuous UI improvements by collaborating on performance optimization, bug fixing, and feature enhancement initiatives.
- Worked in agile development environments with regular sprint planning, code reviews, and collaborative release cycles.

ACHIEVEMENTS

- Received the **Super Star Award** for two consecutive years (2024 & 2025) in recognition of outstanding performance, delivery excellence, and high-impact frontend contributions.
- Awarded “Employee of the Month” at Isobar (Dentsu Aegis Network) for successfully managing multiple enterprise brand deliverables and developing a CMS-driven dashboard solution for 625+ Maruti Suzuki dealers.

- Represented India at the Kuala Lumpur Business Conference for the Maruti Suzuki Arena launch, contributing to digital platform discussions and project showcases.
- Recognized for independently handling end-to-end frontend development and timely delivery of critical business and marketing projects.
- Successfully delivered scalable UI solutions for high-traffic enterprise platforms serving millions of users across web and mobile ecosystems.
- Contributed to performance optimization and UI enhancements that improved user engagement, responsiveness, and overall user experience.
- Led development initiatives for multiple large-scale landing pages, campaign platforms, and enterprise web applications with strong focus on quality and maintainability.
- Appreciated by cross-functional teams and stakeholders for ownership, collaboration, and consistent delivery under tight timelines.

EDUCATION

Master of Computer Applications (MCA) – GLA University, 2017

Bachelor of Computer Applications (BCA) – Dr. Bhim Rao Ambedkar University, 2015
